

**agroblo<sup>TM</sup>**

## Efficiently remove standing water, decrease rain damage, and prevent crop loss.

The Agroblo<sup>TM</sup> hydraulic fan unit works with the Agrotherm XT<sup>TM</sup> to remove standing water and dry off excess moisture in a single pass. Learn how this unique double-sided blower design allows you to:

- **Remove standing water and excess moisture** on the fruit and canopy
- **Reduce moisture-related disease**, including mildew and rot
- **Save time and money** by efficiently treating your vineyard
